Jabir Jamal

Junior Software Engineer — MERN Stack Developer

Islamabad, Pakistan | (+92) 339-5090922 | jabirjamal922@email.com | [LinkedIn](#) | [Github](#)

PROFESSIONAL SUMMARY

Motivated Junior Software Engineer with expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js). A recent graduate with a BS in Software Engineering, offering hands-on experience in developing scalable full-stack applications and creating intuitive user interfaces. Passionate about leveraging problem-solving abilities and a collaborative mindset to contribute effectively to dynamic development teams. Seeking opportunities as a MERN Stack Developer or Junior Web Developer to further enhance technical skills and drive innovation.

WORK HISTORY

Self-Verifier | WestCrew Networks, Rawalpindi
Aug 2025 – Present

- Developed strong communication skills by interacting with customers and handling inquiries, improving my ability to convey technical information clearly and effectively.
- Enhanced problem-solving abilities by managing and resolving client issues in a timely manner, helping to streamline processes and improve service delivery.
- Worked in a fast-paced environment, which taught me to prioritize tasks efficiently and meet deadlines.
- Gained valuable team collaboration experience, working closely with colleagues to improve workflows and customer satisfaction.

Junior Web Developer | Xpert IT & Solution Center, Peshawar
Dec 2022 – June 2023

- Collaborated in client meetings to gather requirements and translate feedback into actionable UI/UX improvements.
- Assisted in the end-to-end development of real-world client applications, focusing on creating custom admin control panels and user-facing dashboards.
- Ensured high availability and optimal user experience by providing critical on-site technical support and ongoing maintenance for deployed web projects.
- Integrated MySQL databases with PHP scripts to manage form submissions and robust backend logic.

Web Developer Intern | Xpert IT & Solution Center, Peshawar
Sept 2022 – Nov 2022
- Developed and maintained dynamic web pages using JavaScript, enhancing user interaction and data presentation.
- Designed and built customized Content Management System (CMS) panels and intuitive admin dashboards.
- Ensured optimal user experience across various devices and browsers by implementing responsive design and cross-browser compatibility.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3, SQL
Frontend: React.js, Redux, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
Tools & Platforms: Git & GitHub, VS Code, Postman, Docker, Vercel/Render

EDUCATION

Bachelor of Science in Software Engineering | City University of Science and Information Technology, Peshawar
2021 – 2025

Intermediate in Pre-Engineering | Government Higher and Secondary School Togh Sarai, Hangu
2019 – 2021

PROJECTS

MealMate – A Food Delivery App
Link: MealMate
- Developed a full-stack food delivery app with React, Node.js, and MongoDB. Integrated real-time order tracking and payment processing (Stripe).
- Built RESTful APIs for user authentication (JWT), order management, and reviews.
- Deployed backend on Railway and frontend on Vercel, with CI/CD pipelines.
- Implemented secure authentication, role-based access, and data protection (bcrypt, JWT). Optimized app performance with Redis caching and horizontal scaling (Docker).

EduTrack - Learning Management System
Link: EduTrack
- Designed and built a Learning Management System, focusing on creating a secure and intuitive front-end for both administrators and students.
- Implemented robust role-based access control for Admins and Students, streamlining user flows and improving the user experience.
- Developed and consumed comprehensive RESTful APIs to power a seamless front-end experience for course creation, updates, and real-time student-course tracking.

Q-AdConnect - Digital Ad Management Platform
Link: Q-AdConnect
- Engineered a digital ad management platform, featuring secure authentication and payment gateway integration with Stripe on the client side.
- Designed intuitive dashboards for Admins, Agencies, and Clients, complete with distinct role-based access functionalities to provide a seamless user experience.
- Optimized MongoDB queries and RESTful APIs to streamline front-end workflows for ad submissions, approvals, and content management.

Personal Portfolio Website
Link: Personal Portfolio Website
- Developed a fully responsive personal portfolio website to showcase technical skills and projects.
- Implemented a functional contact form for efficient message handling.
- Ensured cross-browser compatibility and an intuitive user interface across all devices.

CERTIFICATIONS

HP LIFE Business Email Certification
Link: Business Email
- Completed an online course to learn how to write effective business emails in professional scenarios.
- Gained skills in defining structural elements of business emails and using email for professional communication.

NAVTTC Web & Graphic Design Certification
- Completed a government-certified training program focused on modern web and graphic design tools.
- Gained practical hands-on experience with design software (Adobe Photoshop, Illustrator) and core web technologies (HTML, CSS, responsive design).
- Successfully developed creative visual content and functional websites through project-based learning methodologies.

ADDITIONAL NOTES

- Available for remote work and ready to contribute to dynamic development teams.
- Eager to apply both technical expertise and soft skills to deliver impactful software solutions.
